

Sites for Power Plants

Site 1-

- 45,684 acres and 1597 yards squared
- On the shore of a large 57,518,808 cubic meters Lake
- Within 2.5 miles of a railroad
- Within 1 mile of a Highway
- Is 5 km around the Lake

Site 2-

- 28, 283 acres and 3802.1 yards squared
- On the shore of a large 21,263,000 cubic meters lake
- Within 2.5 miles of a railroad
- Within 1 mile of a Highway
- Is 5 km around the Lake

The best site for the job is Site 2, for the following reasons;

- Has the larger of the two lakes
- Has less land to maintain, but still has plenty of land
- Within 2.5 miles of a railroad
- Within 1 mile of a highway
- Is 5 km around the Lake
